Paula Kahumbu  
Aklilu Lemma  
Paul Du Chailu  
Melaku Worede

# RESEARCH SHEET

Name:

Date of Birth:

Date they Died:

Where were they born?

Did they live anywhere else?

(Show this with a star on the map)

What was their childhood like?

Where did they go to school, university, or/and work?

What topic of science did they study?

Did they face any challenges and if so what were they?

Name three important scientific findings they made:

Did they win any awards for their work?

How did their scientific discoveries help other people?

Draw a picture of your chosen scientist or stick a photo here!

# The Daily News

Date:

Logo

Price:

## Headline

Introduction: One or two sentences summarising the main point of your article

Picture

Paragraph 1: Who is this article about? What happened and where did it take place?

Paragraph 2: The details. Who is your chosen biologist? What did they do, invent or discover?

Paragraph 3: What did people think of your scientist? You could use your imagination and make an interview with your scientist, or someone else in the story.

Paragraph 4: What happened because of what your scientist did? For example did they change the way we live or work?
