

SOCIETY FOR EXPERIMENTAL BIOLOGY PRESENTS:

2025 ANNUAL CONFERENCE
ANTWERP
8-11 JULY 2025

SEBIOLOGY.ORG
#SEBCONFERENCE

SESSION TOPICS WILL INCLUDE:

ANIMAL BIOLOGY SESSIONS

- Multiscale Musculoskeletal Mechanics and Modelling
- Experimental Palaeobiology - Bringing Fossils "Back to Life"
- Functional Morphology of Locomotion and Feeding: A Tribute to Peter Aerts
- Kinematics and Robotics - state of the arts kinematics and their transfer to robotics
- Innovative Methods and Techniques in Biomechanics
- Phenotype and Evolution
- General Biomechanics
- Comparative Endocrinology
- Stress as a Driver of Neural Plasticity: From Brains to Behaviour
- Animal Responses to a Changing World: What About Cognition?
- Going Beyond Death: Understanding Ecologically and Physiologically Relevant Impacts of Environmental Toxicants
- Innovating for a Sustainable Future: Mitigating the Environmental Risks of High-Tech Solutions
- Pollution, Osmoregulation and Energy Use
- Riding The Wave: Insights Into Plastic and Evolutionary Animal Responses to Temperature Challenges
- Vertebrate Cardiovascular and Respiratory Physiology

SCIENCE ACROSS BOUNDARIES BIOLOGY SESSIONS

- Physiological Genomics
